1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. Applicant inadvertently bracketed [] the 7 in the dependency of claim 13 when 37 CFR 1.121 requires underlining of any added text. This amendment is made to clearly reflect that claim 13 depends from claim 7.

The application has been amended as follows:

Claim 13

Line 1, insert - - 7 - - after "claim".

2. Claims 7 and 13-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: a first bushing positioned in a hole in the end of the rod and having the spring positioned in a cavity therein is not adequately taught in a walking aid/crutch combination as claimed. The examiner considered interpreting the housing 27 of US Patent 6,883,530 to Kawakami as the bushing. It was determined that housing 27 could not fairly be considered a bushing because by definition a bushing is a guide or bearing and element 27 fails to function as either for spring 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The definition of "bushing" from dictionary.com is cited.

5. The declaration filed 05/08/07 is accepted.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J. Canfield whose telephone number is 571-272-6840. The examiner can normally be reached on M-Th.
